

**Friday, 3<sup>rd</sup> April**  
**Nature's Art**

**How good is your aim?** Hopefully, your aim is quite good by now! Try the stations again today and see how much better you are today than you were on Monday! (If you've just found us, look back to Monday 30<sup>th</sup>)

**Natural Collages**

Spring is here and the world is looking beautiful so let's make a natural collage! Pick up as many natural objects as you can find in your garden, or when you go for a walk to exercise (remember to keep your social distance) : twigs, petals, fir cones, fallen leaves, petals, stones.

Collect different colours, different sizes, different textures.

Use them to make a natural collage or sculpture. Get creative!

More ideas on the next page 😊 .....

inSpire

**Use any spare items you have to make other art work. This is great fun too:**

- take rubbings (use coloured crayons or wax crayons. If you've used wax crayons you can go over your picture with a very diluted coloured paint wash. Great effect!)
- print with them (you can put the paint on the leaf or twig and print with that or you can relief print by laying the leaf on the paper and using a sponge or brush to put paint around it. Again, a great result!)

Send any photos of your creations to [inspirefm@holyltrinitycuckfield.org](mailto:inspirefm@holyltrinitycuckfield.org) and we'll create an online gallery.

If you're keeping a paper chain diary, don't forget to add another link today.

Remember to save boxes, yoghurt pots, pips and stones from fruit, egg shells.....anything that might be useful!

Choose one of the audio stories to listen to.
