Fun with puzzles!

Doing puzzles is always such good fun.

Have you run out of puzzles to do? Or would it be fun to do one?

You can make a puzzle really easily out of magazine pictures or old birthday cards!

Take your picture and cut it into pieces. Decide how easy or difficult you want the puzzle to be and cut it into large or small pieces. Make sure there is a mixture of wiggly and straight lines for your puzzle!

If you want your puzzle to be stronger, stick your picture onto card first before cutting the pieces. (you can always use a cereal box)

If you each make a puzzle in your family you can share them and do each others.

It's also fun to write a note on the back of the finished puzzle and send it to someone....maybe a grandparent, cousin or friend? They have to do the puzzle before they can read your note to them ! 😊 😊
