Fun pencil and paper games

This is a fun version of Scattergories. All you need is a pencil and paper for every player.

Make a grid and think of the different categories you want to have. You can use: wild animals, farm animals, countries, games, sweets, sports, fruitsyou can choose anything.

The letter is T

clothes				
pet				
TV show				
food				

Ask someone to choose a letter and then write down as many things as you can that start with that letter for each category. Set a timer and off you go! Get a point for every idea.

Make the scoring more difficult for older children by only scoring a point for ideas no-one else has!

Have fun!! Start saving boxes and cartons for junk modelling next week 😊
