Stone painting

Everyone loves painting stones and again it's great for all ages as the design can be as simple or as complicated as your children like! These make lovely presents for grandparents or friends.

Find some good stones. Make sure your paint is quite thick if you are mixing it. If you want your designs to last then acrylic paint is best. Some felt tips, like sharpies will work but they will fade over time.

(If you want your designs to last you can always buy pens that can draw on anything from glass, to wood, to stone but they are expensive.)

You can write names, with patterns around the stones, favourite animals, flowers, monsters, a night sky, ladybirds, bees, fish, boats..... or just lovely patterns! 😊
