

## Wednesday, 24<sup>th</sup> June Tangram puzzles

Tangrams are great for all ages. To make a tangram, take a square of paper or card and fold it in 4 diagonally. This makes it easier to mark in the other pieces. Cut the pieces out and see if you can arrange them to make the following pictures. (look at the next page too). When you have made them, make up your own designs! The big puzzle is then trying to get all the pieces to make a square again when you have finished!
