

**Monday, 13<sup>th</sup> July**  
**Sock puppets**

**Kids love making up plays and what better way than with easy to make puppets.  
Use one of those many socks that's lost its partner in the washing machine!**

**Add wool or string for hair; use googly eyes or cut out eyes from fabric or card and glue on.**

**Stripy socks make great zebras and orange socks make fabulous long-necked giraffes! You can draw a pattern on the sock with felt tips for the giraffe's special markings.**

**If your children want, they can cut the front off a large cardboard box and make a theatre. Paint the theatre to make it look good and how about adding curtains?**

**You could make a set of puppets to go with your favourite story book and then retell the story.**

**Have an interval in the show and serve ice-cream!**
