

QR Village Trail: In Search of Hope

(for 5-8yr olds Mon—Fri)

Become an adventurer, follow the trail around the village and at each QR point use your phone to access a video and get a clue. Once you have all four answers, can you crack the code?

Pick up a map with the QR points on it from the church porch and set off !

A perfect way to engage children in exploring, walking and talking about their experiences and what they are looking forward to.
