

Sunday's Cool Online!

Sunday, 22nd March 2020

We might not be able to meet together this week but let's celebrate Mothers' Day together online! Here are some things to think about and some things to do to help make Mothers' Day special.

Think about all the people you love, particularly your Mum. Think about all the things they do for you because they love you so much. As a family, make a big list or mind map of all the things they do. It's going to be a very big list! How many things have you got on yours?

Now let's think about how we can thank them for all they do.

Make a card. You can make a card in lots of different ways: You could draw a picture of their favourite things; you could make a 3D card by gluing lots of crumpled bits of tissue paper and either drawing the stalks or using string or wool; you could sellotape lots of leaves from the garden onto a card. You probably have your own ideas! 😊

Make some, "helping hand promises" :

Fold a piece of paper in half and draw around your hand three times. Cut your hands out carefully so you have 6 hands. If you want you can draw the nails and lines for the knuckles. On each hand write, " Let me help you by....." Make a hole carefully in the wrist part off your hand and tie them together with ribbon or string. Give a set of hands to your Mum and the people you love, telling them that when they want a helping hand they must take one off, give it to you and ask you to help them by doing.....

It's fun to sing together! If you can remember it, why not all sing, "Don't forget to tell your Mum you love her!" and "Thank you God for the people we love".

Say a prayer together Loving God, thank you for our Mum and for everyone who loves and cares for us (maybe you could all name someone out loud). Thank you for our family and our friends. Thank you for our love for each other and thank you for your love for each one of us. Amen
