**Treasure Hunts**

**Everyone loves a Treasure Hunt!** The weather isn't supposed to be that warm today so how about making a simple treasure hunt around the house?

**Cut lengths of wool or string to hide around the house.**

**Make it more difficult by using something smaller such as grains of rice!**

**You could mix it for different aged children, younger kids finding lengths of wool and older children finding rice!**

**Tell older children how many they have to look for, so they know when they are the winner and have found all of the hidden items.**

**An only child could play against their favourite cuddly toy, using different coloured wools.**

**Happy hunting!**

**Don't forget about our selection of online audio stories....a great read!**
