Treasure Hunts!

Children always love Treasure Hunts and there are so many different types you can set up!

This is a good one that can be played inside or outside depending on the weather.

Hunt for my name Write the letters of your name on separate pieces of paper. Spread them out on the ground and see if you can find objects that start with each letter of your name. You can use Christian names, middle names and/or surnames. Use initials of your middle names if you need to try and make everyone's names the same length!

Alphabet challenge Write all the letters of the alphabet on separate pieces of paper. Spread them out and try and find an object in your home that starts with each letter of the alphabet.

inSpire

Younger children can try and find things of different colours or shapes.

Make it harder

Find 5 objects for each letter of your name or set a time limit!

Happy hunting!! 😊 😊

Don't forget to add a chain to your dairy if you are keeping one during lockdown.

And check out the audio books as more are always being added! There are lots of great stories!
