

Thursday, 21st May
Thursday night is Pizza Night!

How about planning a pizza night tonight as if you were going out for a treat!

Make your base, plan your toppings, make a menu card and set the table as if you were in a pizza restaurant! You can always make a dessert too!

During the day, make your menu cards to stand on the table. Include the selection of toppings and drinks.

A simple recipe for a quick pizza base that doesn't need yeast is:

150 ml of cooking oil

150ml boiling water

225g of self- raising flour

Salt and pepper

Quickly mix all the ingredients together in a bowl for 30-60 seconds. Roll out onto a floured surface in pizza shape. (round or rectangular). Place on baking tray and DIY style, cover with your favourite toppings! 😊

Cook Gas mark 5-6 or 170 for 20-30minutes

Whilst they're cooking made the table look good and decide on drinks. ENJOY!!

Have a great “meal out” at your favourite restaurant!!
