

Monday, 8th June
Let's keep fit!

We haven't done any circuit training for a while. Let's see if you are as fit as you were!!

Set up a training circuit either for fitness or for improving your target aim or your balance! You can always do a mixture of activities!

Here are some ideas if you need them.....Skipping on the spot; squat jumps; netball/basketball shooting; kicking a ball at a target; running on the spot (knees up); star jumps; throw a ball/beanbag into a bin/saucepan; push ups; sit ups; step ups..... **You'll have loads of ideas!! 😊**

Make a chart so you can do them every day this week. Decide how long you want to do each activity for.....and get started!!!

Have fun! And keep fit!!

Keeping super fit!!

	Step ups	Basketball goals	Star jumps	Touch the lines	Skipping on the spot
