Draw a dolphin from simple shapes

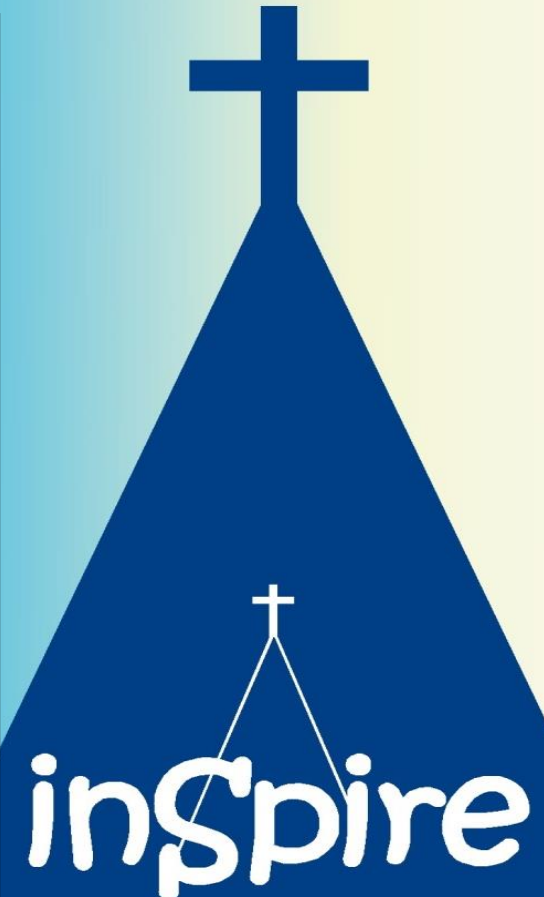

It's great to be able to draw but sometimes it's not always that easy. These simple shapes will show you how to draw a dolphin that you can then either colour or paint. I can't draw but I'm happy with the finished result!! I am sure you will be too. 😊 You could even make a family of dolphins!

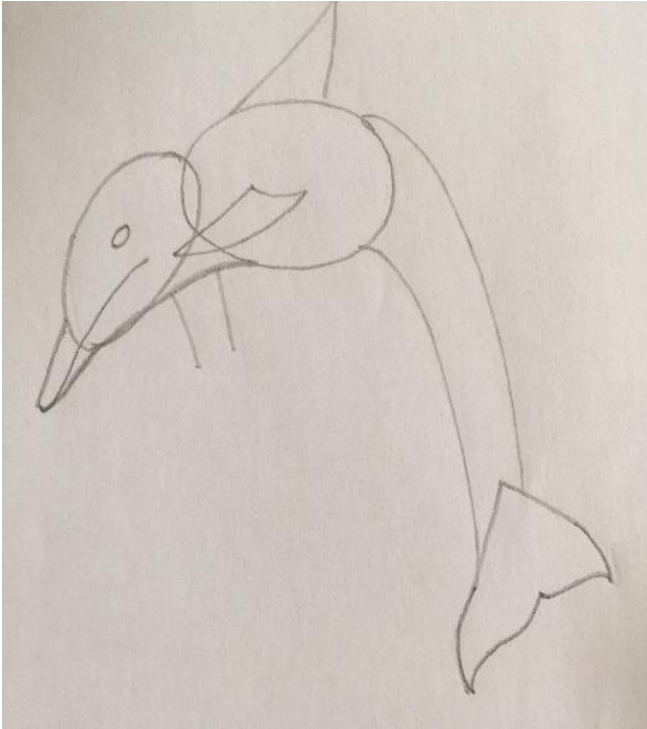

Draw 2 connecting ovals.
Draw a triangle and join with
2 lines to make the tail.

Add 2 lines for the nose. Shape the tail.
Add a fin.

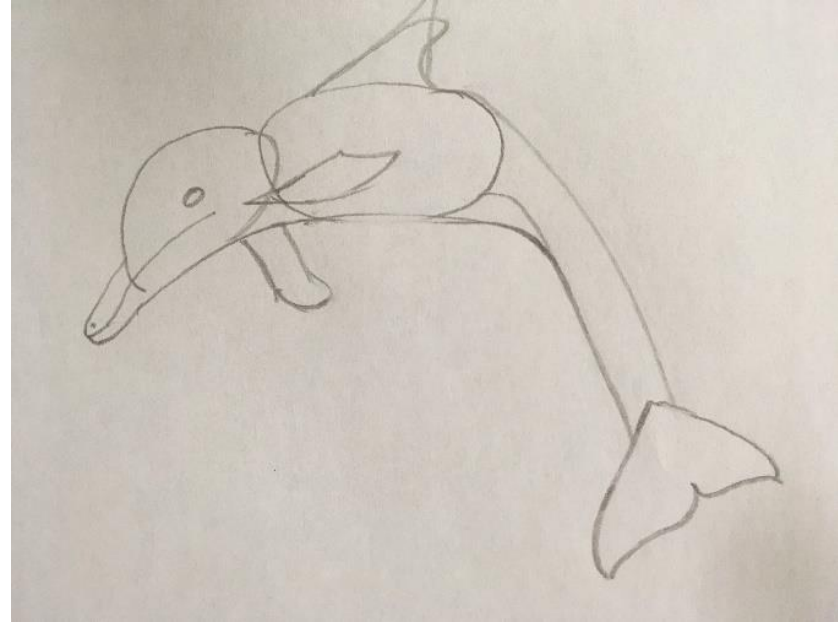

Shape the mouth.

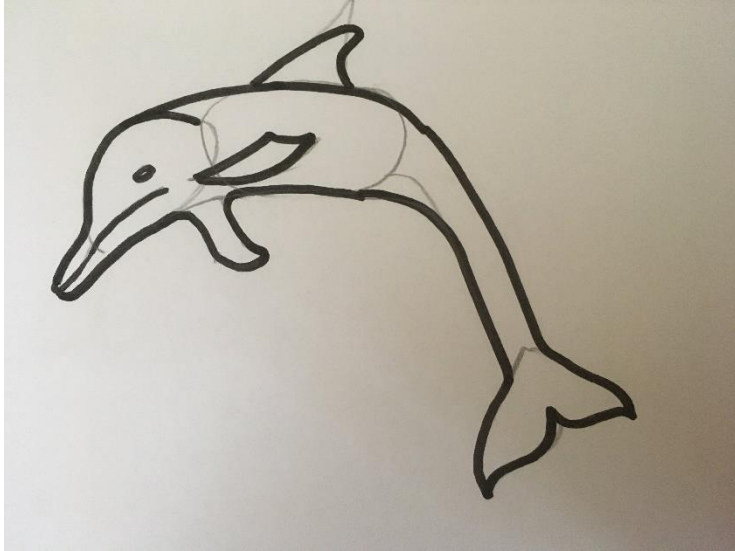

Draw a line under the head to the body.

Add a body fin.

Shape the fins.

Make a continuous line from the head to the tail.

Round the top of the body joining the ovals.

Go over with a pen and rub out your pencil lines! What a great dolphin!
