More water fun!

Kids just love water games and today is going to be really hot, so what better way to cool everyone down whilst having so much fun!

For more hysterical games with water balloons and hosepipes, have a look at Week 11, Wednesday, 3rd June.

There's a hole in my bucket! : Each team has 2 buckets spaced out, one full of water. Players in each team take it in turns to empty one bucket by filling their small container and running to empty it in the empty bucket/saucepan. To make it more fun, give them a container with lots of holes in the bottom to run with (a milk or juice carton cut in half makes a good container. Punch holes with a skewer)

Apple bobbing

Everyone loves this game as your face gets really wet! Float some apples (slightly smaller ones are best) in a washing up bowl. See who is the best at catching an apple with their teeth.

inSpire

How nifty are your toes?

Fill a washing up bowl or paddling pool with an assortment of toys (some that float and some that don't!) Who can get the most toys out of the bowl or pool using only their toes!! 😊 If you're using a washing up bowl it might be easier to set a timer and see who can get the most toys in a given time!

Sponge games are always great fun. (Make sure sponges stay on the grass so they don't pick up any grit.)

Sponge tag

"It" has the sponge and a bucket of water. The other players have to run from one side of the garden to the other when "It" calls out, "Ready for a soaking? Run!" On the word, "run," all the players have to run. It has to soak the sponge before each throw! If a player is hit, he has to freeze on the spot and wait to be unfrozen by being touched by another player.
