Spoons!

Such a great family card game, Spoons will have everyone going crazy!

All you need is a pack of cards and one less teaspoon for the number of people playing. (ie. 4 spoons for 5 players) Play around a table or on the floor.

Place the spoons in a ring in the middle of the table.

The dealer deals 4 cards to each player and places the rest in a deck face down in front of him.

Each player has to try and get 4 of a kind.

The dealer takes a card from the deck, decides if he wishes to keep it, and then discards one from his hand, facedown, to the person on his left.

The next player picks up this card, decides if he wishes to keep it and then discards a card he doesn't want to the person on his left. This player does the same.

Play continues like this around the table, with players picking up and passing cards quickly around the table. All the while the dealer continues taking cards from the deck and discarding to his left! Play can get fast and furious!! 😊

inSpire

The last player makes a discard pile.

Play continues until one player has 4 of a kind, at which point he sneakily takes a spoon. As soon as other players see a spoon has been taken, they rush to grab one. One player will be without a spoon and will be out!

You can keep a score of who winds the most games.

Don't be left without a spoon!!
